DETAILED ACTION

Allowable Subject Matter

1. Claims 1-2, 4-7, 9-16, 18-21 and 23-25 are allowed. (Re-numbered 1-21)

The following is an examiner's statement of reasons for allowance: Prior art of record do not teach the combination of claimed elements including "determining respective average response times of each of the tiers, each respective average response time being a function of a number servers in the tier, an arrival rate of work requests, and an average utilization rate of the critical resource; determining a total average response time as a sum of the respective average response times of each of the tiers; determining a minimum total number of servers required in each tier for the total average response time of the application to satisfy the service level metric" in light of the specification would not have been fairly suggested nor anticipates the combination of the claimed elements.

The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
